

Catalys® PolarZone® -45°C

DESCRIPTION

Catalys Polar Zone -45°C is a ready-to-use, high-performance methanol-based windshield washer fluid. It ensures better visibility and contributes to safe driving in extremely cold conditions. **Catalys Polar Zone -45°C** is an ideal choice for harsh winters with its very low freezing point.

APPLICATION / BENEFITS

Catalys Polar Zone -45°C is designed for use in vehicle windshield washer systems. It effectively cleans windshields and facilitates dirt, ice, snow and insects' removal. **Catalys Polar Zone -45°C** maintains its liquid state during cold weather in tanks, pipes and windshield wiper nozzles, ensuring product effectiveness for year-round usage. Its blue color distinguishes it from other common automotive products.

PHYSICAL PROPERTIES	METHOD	RESULTS
Colour	Visual	Blue
Density at 15°C, kg/l	ASTM D1298	0,93
Freezing Point, °C	Internal	-45
Flash Point, °C	ASTM D56	>24 (typ. 27)

The values listed above are typical of current production, variations in these properties may occur.

AVAILABLE PACK SIZE

	Bulk	1000L tote	205L drum	4 X 3.78L
Catalys Polar Zone -45°C	97-0725-00	97-0725-04	97-0725-05	97-0725-32

HEALTH/SAFETY

GHS compliant English and French Safety Data Sheets are available at catalyslubricants.ca under 'Safety Data Sheets'. Keep container closed when not in use. Please refer to the SDS for safe handling information. Always take used windshield washer fluid and containers to an authorized collection point. Avoid discharge into the environment. As with any windshield washer, keep out of reach of children and animals.

QUALITY

Catalys Lubricants partners with respected industry suppliers to bring you high quality products. For more information, contact your local Catalys Representative. Please ensure this product is right for the equipment by following the recommendations of the equipment operating manual.
