InhalationIf symptoms develop move victim to fresh air. If symptoms persist, obtain medical attention.Skin contactFlush with cool water. Wash with soap and water. Obtain medical attention if irritation persists.Eye contactFlush with cool water. Remove contact lenses, if applicable, and continue flushing. Obtain medical attention if irritation persists.

Ingestion	IF SWALLOWED: Immediately call a POISON CENTRE or doctor. Do NOT induce vomiting.			
Most important symptoms/effects, acute and delayed	Aspiration may cause pulmonary oedema and pneumonitis.			
Indication of immediate medical attention and special treatment needed	Provide general supportive measures and treat symptomatically. Symptoms may be delayed.			
General information	If you feel unwell, seek medical advice (s sheet to the doctor in attendance. Avoid			
	5. Fire-fighting mea	sures		
Suitable extinguishing media	Foam. Dry chemical. Water spray.			
Unsuitable extinguishing media	None known.			
Specific hazards arising from the chemical	During fire, gases hazardous to health m	ay be formed.		
Hazardous combustion products	May include and are not limited to: Oxide	es of carbon.		
Special protective equipment and precautions for firefighters	Self-contained breathing apparatus and	full protective clothing must	be worn in case of fire.	
Fire fighting equipment/instructions	Move containers from fire area if you car	n do so without risk.		
Specific methods	Use standard firefighting procedures and		er involved materials.	
General fire hazards	No unusual fire or explosion hazards not	ed.		
	6. Accidental release n	neasures		
Personal precautions, protective equipment and emergency procedures	Keep unnecessary personnel away. Kee appropriate protective equipment and clo authorities should be advised if significar see section 8 of the SDS.	othing during clean-up. Ensu	re adequate ventilation. Local	
Methods and materials for	The product is immiscible with water and	l will spread on the water su	rface.	
containment and cleaning up	Large Spills: Stop the flow of material, if possible. Absorb in vermiculite, dry sand recovery, flush area with water.			
	Small Spills: Wipe up with absorbent ma remove residual contamination.	terial (e.g. cloth, fleece). Cle	an surface thoroughly to	
Environmental precautions	Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS Avoid discharge into drains, water courses or onto the ground. Do not discharge into lakes, streams, ponds or public waters.			
	7. Handling and sto	orage		
Precautions for safe handling	Avoid prolonged exposure. Avoid contac ventilation. Wear appropriate personal per good industrial hygiene practices in hand	rotective equipment. Wash t	horoughly after handling. Use	
Conditions for safe storage, including any incompatibilities	Store locked up. Store in tightly closed container. Store away from incompatible materials (see Section 10 of the SDS). Keep out of reach of children.			
	8. Exposure controls/Perso	nal protection		
Occupational exposure limits				
US. ACGIH Threshold Limit			_

logical limit values	No biological exposure limits noted for	r the ingredient(s).	
propriate engineering atrols	Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation or other engineering controls to maintain airborne levels below recommended exposure limits. I exposure limits have not been established, maintain airborne levels to an acceptable level.		
ividual protection measures,	, such as personal protective equipme	ent	
Eye/face protection	Wear safety glasses with side shields		
Skin protection			
Hand protection	Impervious gloves. Confirm with repu	• •	
Other	Wear appropriate chemical resistant c		•
Respiratory protection	Where exposure guideline levels may be exceeded, use an approved NIOSH respirator. Respirator should be selected by and used under the direction of a trained health and safety professional following requirements found in OSHA's respirator standard (29 CFR 1910.134), CAN/CSA-Z94.4 and ANSI's standard for respiratory protection (Z88.2).		
Thermal hazards	Not applicable.		
neral hygiene Isiderations	Always observe good personal hygien and before eating, drinking, and/or sm equipment to remove contaminants. V	oking. Routinely wash work o	lothing and protective

Other information			
Explosive properties	Not explosive.		
Oxidising properties	Not oxidising.		
	10. Stability and reactiv	ity	
Reactivity	The product is stable and non-reactive under	normal conditions of use, storage and transport.	
Chemical stability	Material is stable under normal conditions.		
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.		
Conditions to avoid	Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. Do not mix with other chemicals.		
Incompatible materials	Strong oxidising agents.		
Hazardous decomposition products	May include and are not limited to: Oxides of carbon.		
	11. Toxicological informa	tion	
Information on likely routes of	exposure		
Inhalation	Excessive intentional inhalation may cause re effects (headache, dizziness).	espiratory tract irritation and central nervous system	
Skin contact	No adverse effects due to skin contact are expected.		
Eye contact	Direct contact with eyes may cause temporary irritation.		
Ingestion	Droplets of the product aspirated into the lungs through ingestion or vomiting may cause a serious chemical pneumonia. May cause stomach distress, nausea or vomiting.		
Symptoms related to the physical, chemical and toxicological characteristics	Aspiration may cause pulmonary oedema and	d pneumonitis.	
Information on toxicological eff	ects		
Acute toxicity	May be fatal if swallowed and enters airways.	. See below.

Germ cell mutagenicity	•	product or any components present at greater than 0.1% are
Carcinogenicity	Contains < 3% (w/w) DMSO See below.	-extract
ACGIH Carcinogens Distillates (petroleum), hy (CAS 64742-54-7)	ydrotreated heavy paraffinic	A2 Suspected human carcinogen.
Canada - Manitoba OELs: c	arcinogenicity	
(CAS 64742-54-7)	vdrotreated heavy paraffinic	Suspected human carcinogen.
	Evaluation of Carcinogenicit	
(CAS 64742-54-7)	ydrotreated heavy paraffinic	Volume 33, Supplement 7 - 3 Not classifiable as to carcinogenicity to humans.
Reproductive toxicity		to cause reproductive or developmental effects.
Specific target organ toxicity - single exposure	Not classified.	
Specific target organ toxicity - repeated exposure	Not classified.	
Aspiration hazard	May be fatal if swallowed an	d enters airways.
Chronic effects	Prolonged inhalation may be	e harmful.
Further information	Not available.	
	12. Ecolog	ical information
Ecotoxicity	See below	
Ecotoxicological data Components	Species	Test Results
Distillates (petroleum), hydrotreate	ed heavy paraffinic (CAS 6474	2-54-7)
Crustacea	EC50 Daphnia	1000 mg/L, 48 Hours
Persistence and degradability	No data is available on the c	legradability of any ingredients in the mixture.
Bioaccumulative potential	No data available.	
Mobility in soil	No data available.	
Mobility in general	Not available.	
Other adverse effects		ental effects (e.g. ozone depletion, photochemical ozone creation on, global warming potential) are expected from this component.
	13. Disposa	I considerations
Disposal instructions		se in sealed containers at licensed waste disposal site. Dispose of ance with local/regional/national/international regulations.
Local disposal regulations	Dispose in accordance with all applicable regulations.	
Hazardous waste code	The waste code should be a disposal company.	ssigned in discussion between the user, the producer and the waste
Waste from residues / unused products	Dispose of in accordance wi	th local regulations. Empty containers or liners may retain some rial and its container must be disposed of in a safe manner (see:
#34008	Pa	age: 5 of 6 Issue date 04-October-2021

Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

	14. Transport information		
General	Canada: TDG Proof of Classification: Classification Method: Classified as per Part 2, Sections 2.1 – 2.8 of the Transportation of Dangerous Goods Regulations. If applicable, the technical name and the classification of the product will appear below.		
Transportation of Dangerous			
Not regulated as dangerou	is goods.		
	15. Regulatory information		
Canadian federal regulations	n federal regulations This product has been classified in accordance with the hazard criteria of the HPR and the SDS contains all the information required by the HPR.		
Export Control List (CEP	A 1999, Schedule 3)		
Not listed.			
Greenhouse Gases			
Not listed.			
Precursor Control Regul	ations		
Not regulated.			
WHMIS status	Hazardous		
International regulations			
Inventory status			
Country(s) or region	Inventory name	On inventory (yes/no)	
Canada	Domestic Substances List (DSL)	Yes	
Canada	Non-Domestic Substances List (NDSL)	No	
*A "Yes" indicates that all con	nponents of this product comply with the inventory requirements admi	inistered by the governing country(s)
