

## SOLKLEEN

### DESCRIPTION

SOLKLEEN is an industrial cleaner / sanitizer specially formulated for manual cleaning and sanitizing of different surfaces that might be contaminated. It is ready to use and has a pleasant smell of cleanliness. SOLKLEEN is a quaternary ammonium type sanitizer which is safe for the user and for the surfaces to be cleaned. It has a rapid and powerful action to help control the development of microorganisms such as bacteria, yeasts and molds. In addition, it does not corrode soft metals such as aluminum.

### How to use

Remove all visible debris and apply with a manual sprayer or using a pad or a mop, coat the surface well and scrub. Wait a few minutes and rinse with warm water (> 50 ° C) using a garden hose, a mop or a cloth. This cleaner is most effective in hot weather. High pressure scrubbing and rinsing is always recommended for best results. For surfaces such as countertops: spray, wipe and let dry.

### ADVANTAGE

- Helps control development of microorganisms such as bacteria, yeasts and molds.
- Moderate alkalinity
- Quaternary ammonium compound sanitizer
- Moderate foaming
- Pleasant scent
- Safe for users and surfaces
- Does not attack mild metals or aluminum

Properties	Test ASTM	Results
Colour	---	Blue
Density at 15°C	D1298	1,03
PH	D1287	10,5
Flash Point, °C	D92	None
Water solubility		Complete

It is available in cases of 4X4 liters (PC: 07-4706-32)
